

Founded in 2007, TechnaCable is one of the premier manufacturers of data and communication cables in the United States. Headquartered in Arizona, we provide cabling solutions for some of the largest distributors and Original Equipment Manufacturer (OEM) companies.

With over 9,000 sq. ft. of world-class manufacturing and warehousing space, we offer a wide range of products manufactured to the highest standards to best serve the communications and IT industries. TechnaCable ensures high-quality design by employing highly-trained engineers and acquiring the most up-to-date cable assembly equipment. Our skilled staff can provide cost-saving solutions for any scope of project, from simple to complex assemblies. We test every single solution for 100% functionality and all of our products are supplied with a One Year Warranty.
